

Please do not take K-Love off the air in Va. Beach. This station is so very important to me and hundreds of people. The music played by this station is spiritually uplifting and brings a calm over all of our family trips. My 7 yr. old daughter sings along, which brings more joy to my ears than if I had to hear her sing along to anything else that is allowed to be played on the radio. I can't even believe anyone has to defend a station such as K-Love when people are allowed to play songs about sex, drugs and violence all day long. No one has to petition to keep those stations on the air. What has this world come to, doesnt this all seem a bit backwards? Begging to keep uplifting, joyful, wholesome music on the air, while I have to worry that my daughter will turn on something such as "Milkshake," is a little ridiculous to me. I hope my petition helps, you have no idea how much this music helps so many people. Thank you for your time.
